Drivers for Home Automation Control System

LS50 Wireless II works with common Home Automation Control System. Drivers are available for download from our partner page Intrinsic Dev.

Savant: <https://www.intrinsicdev.com/downloads/kef-ls50-wireless-ii-profile-for-savant/>

Elan: <https://www.intrinsicdev.com/downloads/kef-ls50-wireless-ii-driver-for-elan/>

Control4: <https://www.intrinsicdev.com/downloads/kef-ls50-wireless-ii-driver-for-control4/>

RTi: Coming Soon

Crestron: Coming Soon

The drivers for all control platforms will require a certified installer/integrator to add them to your home system, they cannot be installed by the end user. Minimum speaker firmware version is 1.8.

Intrinsic Dev provides full support to dealers, installers and integrators, and have a dedicated online support platform that can be accessed here: <https://www.intrinsicdev.com/support/>
